- **REST API**

### Transferable Skills

- Fast learner
- Teamwork
- Creativity
- Problem-solving
- Effective verbal and written communication

## SPOKEN LANGUAGES

English - Native, French - Intermediate, Russian - Intermediate

## PROJECTS

### Restaurant Content Management System mainly using Typescript and Strapi

*Russell, ON. Aug 2023 - Sept 2023*

- Prototyped a website with a content management system to be proposed to a local restaurant for better customer interaction and more efficient improvements by the owner.
- Utilized React, Tailwindcss, and Typescript for the front-end and Next JS with Strapi for the back-end.
- Designed and Implemented a PostgreSQL database to manage menus, menu items, and more

### GPX Data Viewer mainly using C, Javascript, and MySQL

*University of Guelph. Jan 2021 - April 2021*

- Built a full-stack web application as per the specifications of the Software Systems Development and Integration course.
- Utilized HTML, CSS, Bootstrap and Javascript for the front end
- Integrated C backend for file and data manipulation.
- Designed and implemented a MySQL database to store GPX data

## **Course Search mainly using Javascript, Express and NGINX**

*University of Guelph. Jan 2022 - April 2022*

- Developed a full-stack web application as per the specifications of the Software Engineering course.
- Collaborated with a team of four to ensure effective project management and timely delivery using Gitlabs and Github Milestones.
- Utilized React, MaterialUI, and JavaScript for the front-end, and Node.js with Express for the back-end.
- Deployed the web application on an NGINX server.
- Performed a web scraping of course information using Playwright.
- Displayed course data using React Flow.
- Received positive feedback from the instructor for code quality and project functionality.

## Relevant Work Experience

### **Roducha Farm, <https://www.roduchafarm.com/> - Freelance Full-Stack Web Developer**

*Russell, ON. May 2023 - Aug 2023*

- Built responsive website using NextJS and Node for product information, recipes, and information about the farm
- Designed art assets and product labels using Photoshop and Figma
- Other tech used: React, tailwindcss, MaterialUI, Vercel, Git
- Language: Javascript

### **CIBC: Financial Crimes - Data Engineer Intern**

*Toronto, ON. May 2020 - Aug 2020*

- Debug Scala source code to find potential issues
- Update an employee productivity application using Microsoft Office API, C#, and git version control
- Participate in an employee initiative to create opportunities for better employment and improve company image
- Languages: Scala, C#
