Basic Information
Daniel Kobko
Programmer / UI
(289) 400-5154
1552 MacDonald Rd. Russell, ON.

Resume Objective / Summary
Summary if I have experience needed for the industry
(Ex)
IBM Watson-certified data scientist with 8 months experience from data science internship at private investment banking startup. Achieved 135% investment returns through pioneering new alpha extraction method and modeling relevant financial metrics.

Objective if you have no experience (I want it like this but I should include the experience working for CIBC)
Recent university graduate with computer science major and data science minor. Created class project utilizing AI to beat 500+ students at determining winners across multiple sports disciplines. Seeking to leverage 3.9 GPA and 80 data science-related classroom hours to obtain the junior data scientist position at Brooklyn Tech.

My Experience
-   Web Development Side experience for myself and close friends and family
-   4 months of experience as a data engineer intern

Recent university graduate with a computer science major and 4 months of experience as a data engineer intern. (Main project that I've done where I show how I excel in computer science related to the job). Seeking to leverage 3.7 GPA and (number of hours) (work-field)-related classroom hours to obtain (position) at (company)

Knowledge and Education
Format:
2019-2023 Bachelor of Computing (CS)
Relevant Coursework: C for [utility], Python for [utility], Java for [utility], Python Machine Learning

Experience from Studies
Format:
Data Engineer Intern
May 2020 - August 2020
CIBC, Toronto, ON
Key Qualifications & Responsibilities
-   [What did you generally do]
Key Achievement
-   [What's something you did, whose performance you can quantify]
